
Game Plan?

I keep hearing a lot about a series of books called "Game Plan" on another board I frequent. Has anyone used this series? I'm considering ordering it to take a look, but want to hear some first hand experiences first.

Hello,
I am new to the general music classroom and so I have been studying all of the curriculum out there. Game Plan was recommended to me by a fellow teacher. I looked it over and I really like it. I am going to use it with my classes this year. Let me know if you hear anything else about it.
Thanks!
